Appendix A2. CPT codes and descriptions

We collected the most recent 2022 data, as of October 2022, available from public fee schedules for mental health services provided in fee-for-service Medicaid. Three states were excluded: Tennessee, because it publishes no fee schedule and all services are provided solely through Medicaid managed care; Mississippi, because fee schedules were not available on the Medicaid website at the time of data collection; and Florida, because of data quality issues in the TAF data. We collected non-facility physician fees for the following CPT codes:
